and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

This change will certainly affect how often I will be able to use TracFone. Please do not raise the fees on TracFone. I feel safe knowing I have access to using TracFone when needed. If the rates are raised I may not be able to afford to use it at all. The reason I purchased TracFone instead of the other wireless phone services is because of the affordable rates. Before I purchased TracFone I used calling cards that had reasonable rates.

Please keep TracFone service at its present rates. I don't want to abandon my phone because its too expensive to use. I was aslo planning on purchasing TracFone as Xmas gifts for highschool and college student family members of mine feeling they could handle the price of the airtime cards. I don't think they could afford the additional charge if this change is made.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Juana Jarrett
